This document defines the official publishing, formatting, typography, layout, and documentation standards for all Project Nobody publication.

Every official Project Nobody document should remain consistent with the standards defined in this guide.

Project Nobody

WHY THIS DOCUMENT EXISTS

Consistency creates identity.

Every official Project Nobody publication should follow the same visual language, structural principles, and documentation standards.

This guide exists to preserve consistency across every document, regardless of version, topic, or publication date.

Good ideas deserve clear presentation.

Clear presentation creates lasting documentation.

This guide exists to preserve that standard.

Write Clearly. Preserve Consistency.

CHAPTER 1

Document Philosophy

Every document represents Project Nobody.

Consistency is not about appearance alone. It is about trust.

When every publication follows the same standards, readers recognize a single identity rather than a collection of unrelated documents.

A document should never distract from its message.

Clear structure, consistent typography, and thoughtful spacing allow ideas to speak for themselves.

Every official Project Nobody document should be written with clarity, simplicity, and long-term readability in mind.

Good documentation preserves ideas.

Great documentation preserves identity.

CHAPTER 2

Visual Philosophy

Every Project Nobody document should communicate professionalism before a single word is read.

Visual design is not decoration.

It is a tool for clarity.

Project Nobody follows a minimalist publishing philosophy.

Every page should appear clean, balanced, and easy to read.

White space is intentional.

Typography creates hierarchy.

Consistency creates recognition.

Decorative elements should never compete with the content.

The document should guide the reader naturally from one idea to the next.

A timeless design will always outlast a fashionable one.

Every Project Nobody publication should look like it belongs to the same family.

CHAPTER 3

Typography Rules

Typography is the visual voice of Project Nobody.

Every official document should follow the same typography standards to maintain consistency, readability, and identity.

These rules apply to every Project Nobody publication unless officially updated in a future version of this guide.

OFFICIAL TYPOGRAPHY

Primary Typeface

Georgia

Cover Title

28 pt • Bold • Center

Main Heading

24 pt • Bold • Center

Chapter Number

18 pt • Bold • Center • ALL CAPS

Section Heading

16 pt • Bold

Label

12 pt • Bold

Body Text

11 pt • Regular • Justified

Closing Statement

13 pt • Bold Italic • Center

Capitalization

Cover Titles → ALL CAPS where appropriate

Chapter Numbers → ALL CAPS

Chapter Titles → Title Case

Body Text → Sentence Case

Text Alignment

Headings → Center

Body → Justified

Labels → Left

Values → Left.

CHAPTER 4

Page Layout System

Consistent page layout improves readability and creates a unified publishing identity.

Every official Project Nobody document should follow the same page layout standards to ensure clarity, balance, and consistency.

OFFICIAL PAGE LAYOUT

Margins

Normal (1 inch/2.54 cm)

Alignment

Headings → Center

Body → Justified

Labels → Left

Values → Left

Line Spacing

1.15

Paragraph Spacing

Before → 0

After → 3

Blank Line Rules

After Headings → 1 Blank Line

Between Sections → 1 Blank Line

Before Closing Statements → 1 Blank Line

Page Break Rules

Every new chapter begins on a new page.

CHAPTER 5

Cover System

Every Project Nobody document begins with its cover.

The cover establishes identity before a single page is read.

Every official publication should follow a consistent cover structure to maintain recognition, professionalism, and continuity.

Project Name

Project Nobody

Document Title

Centered below the project name.

Version

Displayed directly below the document title.

Subtitle (If applicable)

A short descriptive line placed below the version.

Edition

Examples:

- First Official Public Edition
- Internal Master Edition

Bottom Signature

Project Nobody should appear centered at the bottom of the cover page.

Cover Design Rules

- White background
- Black typography
- No borders
- No decorative graphics
- No unnecessary icons
- Clean and balanced spacing.

CHAPTER 6

Chapter Design

Every chapter should follow the same visual structure.

A consistent chapter design helps readers recognize hierarchy, improves readability, and preserves the identity of every Project Nobody publication.

Every official document should follow these chapter design standards unless a future version of this guide officially updates them.

OFFICIAL CHAPTER STRUCTURE

Chapter Number

Displayed at the top of every chapter.

Format: CHAPTER 1, CHAPTER 2, CHAPTER 3

Chapter Title

Displayed directly below the chapter number.

Use Title Case.

Body Text

All chapter content should use the official body text standard.

Blank Line Rules

After Chapter Number → 1 Blank Line

After Chapter Title → 1 Blank Line

Between Sections → 1 Blank Line

Page Rule

Every new chapter must begin on a new page.

CHAPTER 7

Document Components

Every Project Nobody document is built from a consistent set of components.

Not every publication requires every component, but the order should remain consistent whenever they are used.

A predictable document structure improves readability, navigation, and publication consistency.

STANDARD DOCUMENT STRUCTURE

Required Components

1. Cover Page
2. Copyright Page
3. Purpose Page

Optional Components

1. Dedication
2. Table of contents
3. Introduction
4. Appendix
5. References

Final Components

1. Closing Page (if applicable)
2. Document Information

Order Rule

Components should always appear in the standard order unless an official exception is defined in a future version of this guide.

CHAPTER 8

Version System

Every official Project Nobody document should follow a consistent versioning system.

Version numbers communicate the level of change made to a document and preserve its publication history.

Every new version should improve the document while maintaining continuity with previous editions.

OFFICIAL VERSIONING STANDARD

Version 1.0

The first official release of a document.

Version 1.1

Minor revisions, corrections, formatting improvements, or small content updates that do not change the document's core structure.

Version 2.0

Major revisions that introduce significant structural changes, new chapters, or substantial updates to the document.

Version History

Every official revision should be documented and should clearly identify the new version number.

Version Rule

A document should never overwrite its previous version. Each official revision should create a new version while preserving earlier editions for historical reference.

CHAPTER 9

Naming Conventions

A clear naming system improves organization, recognition, and long-term consistency.

Every official Project Nobody document should use descriptive, timeless, and consistent names.

Document names should describe their purpose without relying on trends or unnecessary complexity.

OFFICIAL NAMING STANDARD

Document Titles

Official document titles should be written in Title Case.

Examples:

Builder Guide

Project Bible

Document Style Guide

Project Archive

Builder Playbook

Culture Guide

Version Format

Version numbers should always appear after the document title.

Examples:

Builder Guide v1.0

Project Bible v2.0

Document Style Guide v1.1

Edition Format

Use a clear edition label when applicable.

Examples:

First Official Edition

Internal Master Edition

Public Edition

Naming Rules

Use short, descriptive titles.

Avoid abbreviations unless officially defined.

Avoid unnecessary punctuation.

Maintain consistent capitalization across all publications.

A document name should remain stable across future versions.

CHAPTER 10

Future Document Rules

Every future Project Nobody publication should preserve the standards established in this guide. Consistency across documents strengthens the project's identity and ensures every publication belongs to the same documentation system.

New documents may introduce new ideas, but they should never abandon the established publishing standards without an official revision of this guide.

OFFICIAL PUBLICATION RULES

Every New Document Should

Follow the official typography standards.

Follow the official page layout system.

Follow the official chapter design.

Follow the official naming conventions.

Use the official versioning system.

Maintain consistent formatting throughout the document.

Preserve the identity and philosophy of Project Nobody.

Future Revisions

Changes to these standards should only be introduced through an official revision of the Document Style Guide.

Closing Principle

Documentation should evolve with the project while preserving consistency, clarity, and long-term identity.

Consistency preserves identity. Identity preserves the project.

THE STANDARD CONTINUES

Every standard begins as a decision.

Every consistent publication strengthens the identity of Project Nobody.

This guide is not intended to limit creativity.

It exists to preserve clarity, consistency, and long-term recognition across every official publication.

As Project Nobody grows, its documents will continue to evolve.

Their identity should not.

Good documentation preserves knowledge.

Great documentation preserves culture.

Write with consistency. Build with purpose.
